

Technical Data Sheet

PP 9x0,60/200x190 mm automat. strapping tape, black, "light"

Material: Thermoplastic polypropylene

Parameters

	<i>measurements</i>	<i>min</i>	<i>max</i>
Width	mm	8,4	9,0
Thickness	mm	0,52	0,64
Breaking force	N	900	
Elongation at break	%		25
Spec.weight	g/m	2,9-3,2	

Coil dimensions: 200x190 mm paper coil, fixed at 3 points, 3700m/coil

Packing: 426x426x190 mm Paper box

Storage:

In dry, covered place

Other specification:

Rugged surface

Suggested usage:

The coil needs to be placed on the strapping machine along with the protecting disc than fasten the roll and cut the seals.

- Waste can be recycled, environmental friendly.
- Products mentioned above in accordance with the XXV. Act 2000 are not qualified as dangerous material or product.
- The production and qualification process of the product occurs in accordance with the ISO 9001:2008 quality control process and the ISO 14001:2004 environmental friendly process.
